

Report from the NIS Cooperation Group – WorkStream on WHOIS

Finn Petersen, Director of International ICT Relations
Chair of WS for Digital Infrastructure and Providers
Chair of WS on WHOIS

DIGITALISERINGSSTYRELSEN

NIS2 Cooperation Group tasks [non-exhaustive list]

- Provide guidance and exchange best practices and information on NIS2 implementation and transposition
- Exchange advice and cooperate with the Commission on draft delegated or implementing acts
- Exchange views on sector-specific cybersecurity legislation
- Carry out coordinated security risk assessments of critical supply chain
- Play key role in the establishment and organization of the peer review mechanism

WorkStreams under the NIS CG [non-exhaustive list]

- ❑ WS on Cybersecurity risk and Vulnerability management
- ❑ WS on Incident reporting
- ❑ WS for Digital Infrastructure and Providers
- ❑ WS on WHOIS

WS on WHOIS

Purpose - draw up guidelines on the NIS2 directive's Article 28 to have a harmonized approach when implementing and using the provisions in the article at national level.

Task Force on Verification

Main goal: to draw up draft guidelines covering the provisions in Article 28(1)-(4), e.g., methods of verifying WHOIS data, how and when to verify already collected WHOIS data etc.

Taskforce on Legitimate Access

Main goal: to draw up draft guidelines covering the provisions in Article 28(5), e.g., criteria for legitimate requests, what should be delivered within 72 hours, how to deal with an urgent request, should there be a system or a form for the requester to use etc.
