NIS2 in Czech Republic

ICANN78 Day Zero Workshop

Jaromir Talir • 20. 10. 2023

CZ.NIC | CZ DOMAIN REGISTRY

Timeline

- Assigned to National Cyber and Information Security Agency
- Revision of our Cybersecurity Law originally from 2014

January 26	March 12	June 19	July 20	End 2023	Q3 2024
First public draft	End of public hearing (1144 comments)	Second public draft	End of official comment period	Government voting	Effectivity

CZ.NIC | CZ DOMAIN REGISTRY
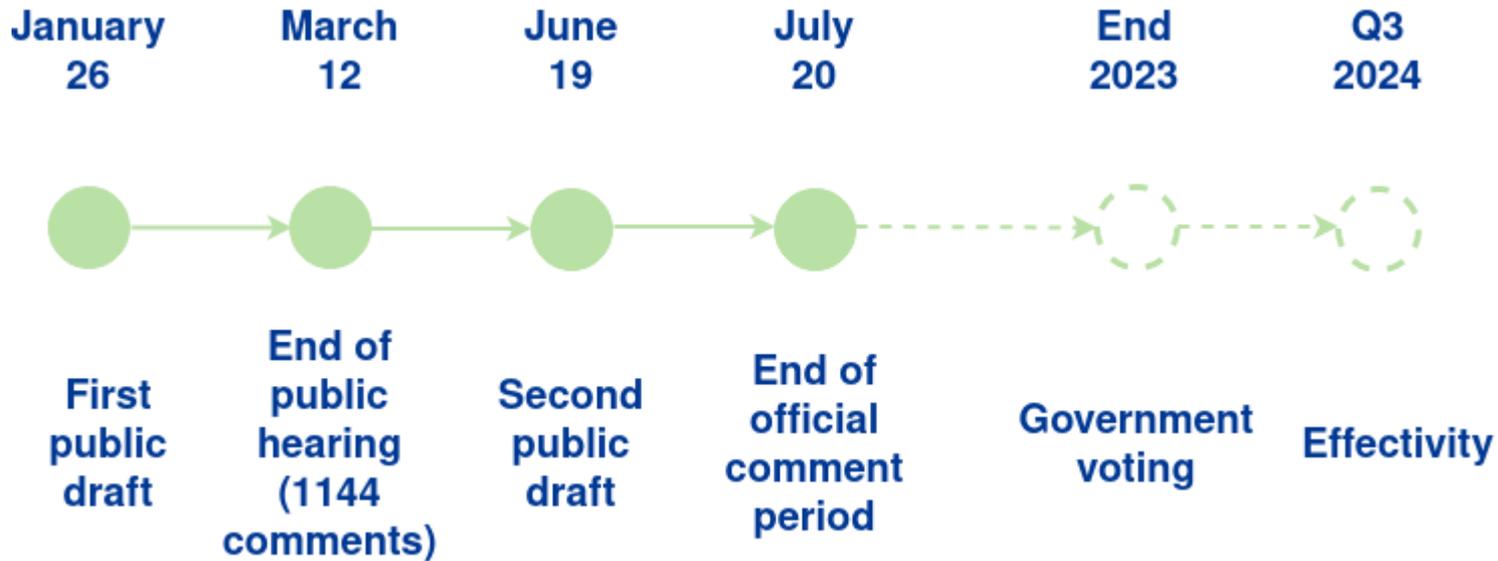

Article 28

- Mostly cut&paste from NIS2

- Our main comment was to allow access to national eID for both TLD name registries and entities providing domain name registration services

    - Up to now, access to national eID is allowed only for entities with legal requirement to verify identities

- Paragraph 6 originally moved to explanatory note, but after our intervention it was put back into legislative text

CZ.NIC | CZ DOMAIN REGISTRY

Future

- Currently highest blocking point is security of supply chain

    – Strong role of National Cyber and Information Security Agency

    – Significant opposition from some lobby groups

- If there will be significant delay, it may hit elections in 2025

Thank you for watching!
